| * | Where groups of substances have been selected, typical individual representatives are listed as indicative parameters (in brackets and without number). The establishment of controls will be targeted to these individual substances, without prejudicing the inclusion of other individual representatives, where appropriate. |
| ** | These groups of substances normally include a considerable number of individual compounds. At present, appropriate indicative parameters cannot be given. |
| *** | This priority substance is subject to a review for identification as possible "priority hazardous substance". The Commission will make a proposal to the European Parliament and Council for its final classification not later than 12 months after adoption of this list. The timetable laid down in Article 16 of Directive 2000/60/EC for the Commission's proposals of controls is not affected by this review. |
| **** | Only Pentabromobiphenylether (CAS number 32534-81-9) |
| ***** | Fluoranthene is on the list as an indicator of other, more dangerous Polyaromatic Hydrocarbons |
